II. Purpose

The Façade Improvement Grant (FIG) program is an initiative to visually improve targeted business sectors demonstrating a need of public investment to spur further investment from the private sector. The goal is to visually enhance the streetscape and increase interest in the City of Portsmouth. This initiative also serves as a tool in supporting and retaining small businesses.

III. Reimbursable Costs

Allowable Improvements:

Please note:

(1.) All improvements must be allowable through the City's Downtown and Historic (if applicable) guidelines and approved by the appropriate decision making body or commission (i.e., Portsmouth Planning Commission, Downtown Design Committee, Historic Preservation Commission, etc.)

- New construction
- Security systems (i.e., cameras, window bars, etc.)

IV. Application Process

The FIG application is a two-step process—there is a preliminary application and a finalized application. The reason for this two-step process is because the application requires documented approval from other City departments. A permit to begin work is required on all improvements, and additional approvals may be required from the Downtown Design Committee or the Historic Preservation Commission, if applicable.

The pre-application is to be submitted to the Department of Economic Development for review **and is not considered submitted if incomplete**. The pre-application identifies all required information and attachments to be produced by the applicant. Completed applications will be presented to the Economic Development Authority (EDA) for preliminary approval. Applicants will proceed to obtain appropriate approvals as described above. **EDA pre-approval is not a factor in obtaining other City approvals and the qualification standards do not parallel.**

The pre-application can become the finalized application if completed with City approvals. With final application, the applicant must outline to the EDA which of the two quotes provided during pre-application will be used in the execution of the project. The City of Portsmouth EDA would like to encourage the use of Portsmouth businesses in the execution of projects granted FIG funds. To this end, the EDA Commissioners will look more favorably upon projects that use materials and labor from Portsmouth businesses.

With a finalized and complete application approved, the applicant moves into a Grant Agreement with the EDA, agreeing to accept the grant funds approved by the Authority and not to exceed **50% of actual verifiable paid expenses**. If the grantee makes any changes to the pre-approved project during execution of the project, the grantee must notify the Economic Development office in writing in advance the changes.

Approval or denial of a pre-application lies within the discretion of the EDA Board of Commissioners, considering factors such as the degree to which the improvements contemplated by the pre-application further the goals of the program, the degree of the need for the improvements, the level of funding requested, the amount of program funds remaining for the year, and any other factors the Board may deem relevant.

V. Grant Funds

The Local Incentives Program is funded entirely by the Portsmouth EDA. FIG is a matching, reimbursement program which requires the applicant to make the initial investment of the full project costs; half of the eligible costs will be paid as a reimbursement based on verifiable evidence of payment (canceled checks or credit card statements matched with receipts or invoices marked paid in full).

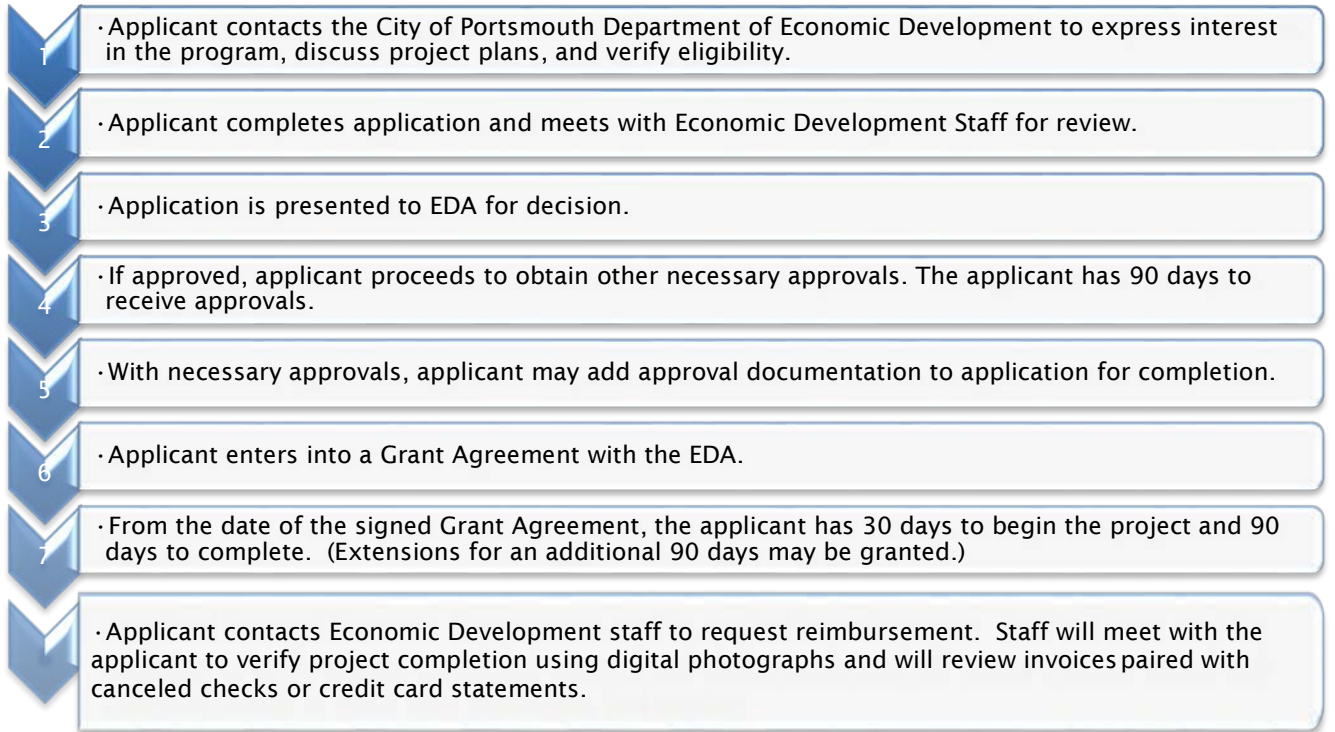

The maximum FIG amount available for any approved project or property is \$25,000. The FIG maximum is connected to the subject property for the life of the program; therefore an applicant with a \$10,000-grant eligible project may re-apply for up to \$15,000 for the same property at a future date (or any combination not to exceed \$25,000).

Funding is available until the funding pool has been exhausted on an annual basis as appropriated.

All recipients are required to enter into a FIG Agreement document. This document will establish the conditions of approval and terms of grant disbursement. Under no circumstances will funds be disbursed into a ratio higher than the matching requirements. **Proof of costs paid by the applicant will be required before grant funds are to be disbursed. Grant payments will not be made if façade improvements deviate from those outlined in the Grant Agreement and/or have not been previously approved.**

Grant funds are paid as a one-time reimbursement, not draws. The grantee must set a meeting with Economic Development Staff to review invoices/receipts and proof of payment.
